OWI Warns That Allies Are Not Yet Winning And More Effort Is Necessary

By International News Service  
With eight months of war behind her America prepared today for more heavy shocks in the devastating fighting that raged around the world. The broad picture of the globe-shaking struggle was not cheering to the hard-pressed United Nations.

In the Caucasus and along the lower Don the Red armies continued to give ground before the relentless power of German arms.

In Asia a strong conviction grew, that Japan was about to launch the long-expected attack on Siberia, increasing the woes of the Soviets and further complicating the problems of the Allied nations in maintaining and feeding the lengthy supply lines to far-flung fronts.

In India the national congress party assembly prepared today to pass the resolution calling for nationwide civil disobedience, should Britain refuse to grant the country immediate independence.

Middle East Quiet

In the Middle East the allied armies apparently have not yet been able to assemble a sufficient striking force to drive the axis out of its entrenchments scarcely 80 miles from vital Alexandria.

Gloomy Background

Against this gloomy background America and her allies today contemplated the sobering summary of the country's war effort by the Office of War Information. In an extremely candid statement OWI declared that America was "only ankle deep" in the war effort when it should be all-out, and warned that we were not yet winning the war.

Production of war materials has fallen behind in many critical categories, and our allies have not received from us the quantity of supplies they were led to expect, the statement said.

But there were some good omens to balance the disappointments.

The Russians fought doggedly and held at many points along the bloody front. In Washington the conviction was expressed by military circles that she would not be knocked out even if Stalin-grad is lost and the Caucasus isolated.

Allied diplomatic and military representatives were reported holding important conferences in Moscow which may bring some relief to the desperate Russian situation.

Russians Ready

There was no doubt that the Soviet government is prepared for any move the Japanese may make in Siberia.

Gandhi has adopted a most conciliatory tone in his appeals for India's freedom, and hope grew that the crisis may find some solution to avoid revolution and bloodshed.

Using the forces available, Gen. Douglas MacArthur struck the heaviest blow yet dealt an enemy base fringing Australia.

The largest force of heavy bombers yet sent on a single raid in that area blasted the Japanese base at Rabaul, New Britain, and shot down seven of twenty zeros that attempted to interfere. This

LOS ANGELES, Aug. 8—That the presence of the Japanese in the Aleutian islands represents an increased menace to the Pacific coast was conceded today by Armetus L. Gates, assistant secretary of the Navy for air, here on a visit.

"The Japanese in the Aleutians," he said, "are just that much nearer to the west coast of the United States than if they were not there. Therefore, the danger of an air attack is greater."

"I cannot go as far as to say they are blocked at Attu and Kiska nor will I deny that they might make long-range excursions from bases on those islands."

"After all," General Doolittle and his men bombed Tokyo. The situation could be reversed."

Pending action against the Japs was hinted by Gates.

"So far," he said in this connection, "Japanese activity in the Aleutians has been very costly to the enemy. They have lost heavily to date in ships and men."

"We hope and believe their losses soon will be even greater. With the United States Army and Navy operating under unified command there will, indeed, be interesting developments, which, we hope, will prove exceedingly unpleasant to the enemy."

Mahatma Speaks Long In Attempt To Clarify Non-Violent Revolt

CAMPAIGN APPROVED

United States Criticised For Failure To Stand Against Britain

BOMBAY, Aug. 8—Doubts arose today among members of the all-India congress committee concerning the effectiveness of the proposed civil disobedience campaign should Britain fail to comply with a demand to grant India immediate independence.

Mohandas K. Gandhi, aged spiritual leader of millions of Hindus and unofficial leader of the party, spent an hour and a half when the full committee of the congress reconvened today in an attempt to clarify the program of "non-violent" revolution he has sponsored.

The resolution providing for a disobedience campaign in event the party's independence demand is not met already had been approved by the party working committee and it was expected that the full committee would approve the motion today.

The vote was postponed from yesterday while party leaders undertook to explain to the world their full intentions.

U. S. Draws Fire

During the course of the addresses the United States, which will be called on along with China and Russia to support the congress position, was severely criticized for its attitude regarding the party's stand.

"The British long have looked scornfully on us and now is the time for us to look scornfully on them," declared Pandit Jawaharlal Nehru, former president of the party and, second only to Gandhi, still powerful leader of the group.

"We have spent too much time discussing whether our plans for independence might embarrass the British. The only thing that matters is whether the plans are good for India."

"Britons and Americans sniff at us as a backward race. Indians were civilized long before civilization was attained by Britain and America."

## BRITAIN PAVES WAY FOR GREAT AMERICAN ARMY

LONDON, Aug. 8—Indications that Britain is preparing for a great American Expeditionary Force in England were disclosed today by the statement of Labor Minister Ernest Bevin that "Britain's biggest job" is the rapid construction of camps, air bases and port facilities for American forces.

The urgency and importance of the job was revealed by Bevin's announcement that 28,000 construction workers scheduled to be called up for military service would be deferred until the installations for American forces are completed.

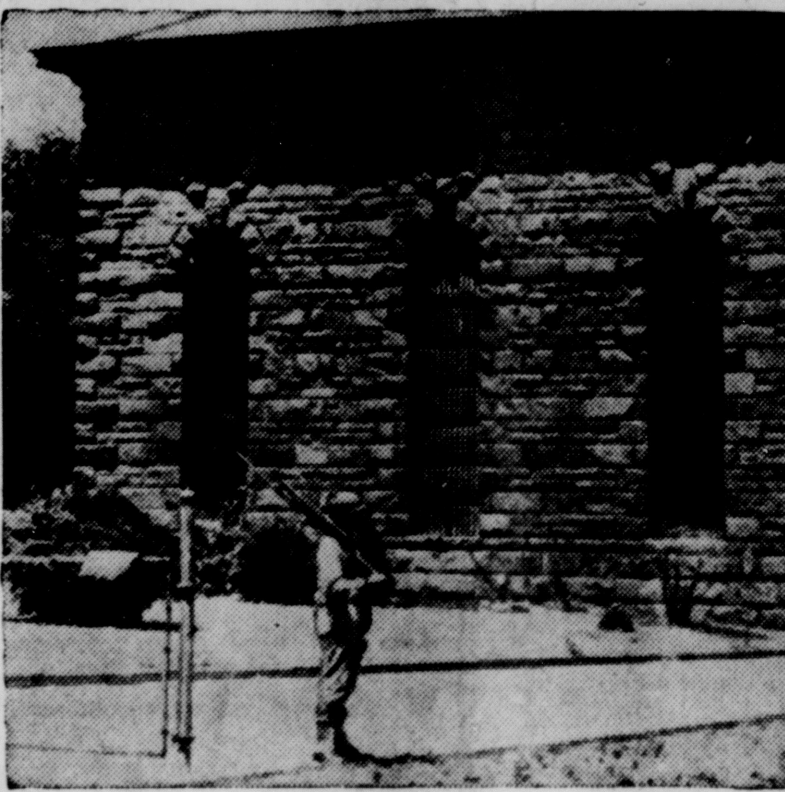

All civilian building projects will be postponed until the military constructions have been finished. If necessary craftsmen will be drafted from other industries to speed the construction of camps and airports.

## FIRST ARMY-NAVY "E" TO BE AWARDED SHIPBUILDER

KEARNY, N. J., Aug. 8—For its record of launching four destroyers in 50 minutes, plus one triple launching and several twin launchings of similar craft, the Federal Shipbuilding and Drydock company next Monday will receive the first presentation of the new Army-Navy "E" production award.

The presentation will be made personally by Secretary of the Navy Frank Knox.

## BOYS OF 20 TO BE CALLED SOON

Draft Board Preparing To Send Questionnaires To Fifth Registrants

Possibility that older boys of the fifth Selective Service registration will be called into service before the first of next year was expressed Saturday by the Pick-away county draft board. The office started Saturday to prepare questionnaires which will be mailed at once to all boys of 20 years who registered in the fifth sign-up in June.

Board records show about 120 available at the present time, with each becoming eligible for induction as soon as he reaches the age of 20.

Boys of 18 and 19 who signed up in June cannot yet be called into training under the Draft Act, but official Washington has been hinting for some time that the draft age will be lowered. Local board officials look for the reduction to be made shortly after the November election.

Youths who registered in June are order numbered according to their ages, the oldest of the group receiving number 1 in the fifth registration list.

All in this group are placed at the end of the third registration list, meaning that no 20 year old of the fifth registration will be called into service until all single men of the 35-45 group who can pass physical examinations are inducted.

Draft office said Saturday that all questionnaires should be filled out completely in ink and signed by a notary public. Importance of filling out everything on the questionnaire is stressed, since many of the third registration questionnaires are so incomplete that the board expects to start soon to call in many men who did not exercise the necessary care in completing their papers. Blank spaces, or spaces erroneously marked, will be filled in or corrected with assistance of the advisory board.

Since practically all boys of the fifth registration are high school graduates the board believes that it will not be necessary to call in the advisory board to help fill out the papers. However, care must be exercised by the youths in answering all questions.

That many of the youngsters will be called before January 1, 1943, is indicated by the fact that the July call included many single men from the 35-45 group and that the contingent to be sent later in August will include about 90 percent third registration men. Since September's call is the largest received to date it is likely that this call and the one for October will take nearly all single men of the third group.

Then will come the fifth registration boys of 20.

U. S. TANKS IN INDIA

LONDON, Aug. 8—Considerable quantities of American-made "General Grant" tanks are in India, it was disclosed today by publication of photographs of newly arrived American equipment.

THESE pictures are of the District of Columbia jail where the eight German saboteurs awaited their fate after having been tried by a military commission. One is an exterior view, showing a soldier on

guard outside the jail's barred windows. The other is "death chamber" in the jail. Sentences of the eight enemy agents were handed down by President Roosevelt.

## Second Front Opening May Be Done By Axis

WASHINGTON, Aug. 8—Military observers today declared there is every possibility that the axis powers will open up a second front of their own before the United Nations can either throw additional aid into Russia or successfully open a second land front.

Developments in the last few days have weighed heavily to make such a belief come to the fore, it is believed here. Foremost of these are the following:

1. The continued German advance in the Caucasus, and despite Timoshenko's throwing in extra reserves, the rich oil laden lands between the Black and Caspian seas are almost within Hitler's grasp;

2. The arrival of Maj. Gen. Follett Bradley in Moscow on a special mission with a letter from the President for Stalin which has resulted in;

WASHINGTON, Aug. 8—Three unidentified American soldiers and a British sailor today offered to execute the six Nazi saboteurs, doomed to die by President Roosevelt, but their offer was rejected.

At about 3 a. m., the soldiers and the sailor knocked at the door of the district jail where all eight spies are being held and volunteered to serve on a firing squad to shoot the saboteurs.

However, officials told them that they would not be able to take part in the execution.

## YELLOW KID OUT ON BOND AFTER DUPING WOMEN

CHICAGO, Aug. 8—Joseph R. Weil, better known as the "yellow kid," king of confidence men, was out of jail today, but he still faced charges of duping two women on a mining stock deal.

The kid gained his freedom through the efforts of his comely 26-year-old daughter, Josephine, who managed to raise the \$10,000 bail after weeks of effort.

It was the first taste of free air the "dapper dupe" had breathed since 1939 when he became a "guest" of Uncle Sam at the Atlanta federal penitentiary.

## JUGOSLAV GUERRILLAS DRIVE INTO AUSTRIA

LONDON, Aug. 8—Gen. "Draga" Mihailovich's Yugoslav guerrillas have invaded Reich territory with a thrust into southern Austria, the German anti-Nazi secret radio station reported today, according to the Daily Herald.

Deserters from the Austrian army led Mihailovich's men across the border of the Austrian province of Carinthia which is adjacent to the Yugoslav and Italian borders.

Fighting has been under way for several days.

## U. S. BOMBS FALL ON CANTON BASE

Japanese Buildings, Docks And Wharves Blasted By Bomber Planes

CHUNGKING, Aug. 8—American bombing planes, accompanied by an escort of fighters, today attacked the Japanese-held "white cloud" airbase at Canton and blasted Japanese buildings, docks and wharves in the Canton area, American headquarters in China announced.

"There was extensive damage to Japanese installations and several enemy planes were destroyed on the ground," a communique issued by Lieut. Gen. Joseph W. Stilwell said.

"After the bombs were dropped at least nine Japanese fighters intercepted the American formation."

"Captain Charles Sawyer shot down a new-type Japanese 97. "Lieut. Patrick H. Daniels shot down a zero fighter and Aerial Gunner Coaling, rear gunner of a bomber, hit and probably destroyed a third Japanese fighter."

## W.P.B. AND NAVY AT ODDS OVER KAISER'S PLANES

WASHINGTON, Aug. 8—The War Production Board and the Navy today are believed to have clashed over a WPB announcement giving approval to Henry J. Kaiser, west coast shipbuilder, for the construction of 500 giant cargo planes.

Donald K. Nelson, WPB chief, disclosed that approval had been given Kaiser to build 100 flying boats of the 70-ton type, developed by the Glenn L. Martin Co., of Baltimore, with 400 more to follow if the initial project is successful.

However, reports indicate that there has been a delay on issuance of a formal "letter of intent" and that the Navy department had balked on the subject. Informed sources said that if the Navy fails to sign the "letter of intent" it will be signed by Nelson.

In addition to the "consent" for construction of 70-ton cargo planes, it is reported that Kaiser will receive a letter of intent to proceed with engineering work on a giant 200-ton flying boat, although production will not be authorized.

## AUTOGRAPH COLLECTOR TOO AMBITIOUS; JAILED

NEW YORK, Aug. 8—J. Duane Upton, of Erie, Pa., an unemployed clerk, who collected autographs as a hobby was awaiting sentence today because his ambitions put him beyond the pale of the law.

Upton was convicted of mail fraud for having written threatening letters to Edna St. Vincent Millay in an effort to secure holographs of four of the authoress' outstanding poems.

## EXECUTION OF SIX ANNOUNCED AT WASHINGTON

Plot To Sabotage American War Effort Leads To Death For Invaders

BEAT IS SCORED BY INS

Stephen Early, Secretary To President, Gives Word On Carrying Out of Sentence

WASHINGTON, Aug. 8

—Six Hitler-trained Nazi saboteurs were electrocuted here today in full expiation for their parts in a German terrorist plot to sabotage American war industries, transportation and commerce.

The six were landed with two others, both of whom were spared the death penalty, from German submarines on the coasts of Long Island and Florida in mid-June.

All six were electrocuted in the District of Columbia jail during the forenoon.

The announcement confirmed a 24-hour "beat" by International News Service that serves the Circleville Herald among other papers.

Announcement of the executions was made by the Presidential secretary Stephen Early at 1:25 p. m.

The sextet—Warner Thiel, John Edward Kerlin, Heinrich Harm Heinck, Robert Quirin and Hermann Neubauer and Herbert Haupt—were originally slated to die between midnight and dawn Friday morning but were given an eleventh-hour reprieve when Mr. Roosevelt decided to give further study to the record of Haupt, the 22-year-old "baby" of the saboteur crew.

The President, after further consideration, finally decided to approve the military commission's recommendation for the death penalty against Haupt. So, the youngster died with his five colleagues in the electric chair.

Two other Nazi invaders—George John Dasch and Ernest Peter Burger—were given sentences of life imprisonment by the military commission. Mr. Roosevelt approved this mercy verdict, because both Dasch and Burger apparently aided the government in capturing all eight and recovering huge caches of explosives in the sands of Long Island and Florida beaches.

There were several signs during the night that the Nazis were about to die. One was the action of prison authorities in ordering twenty trustees back from the prison laundry 45 minutes before their usual workday ends, so they could be locked in their cells before midnight.

Just before midnight, a group of fifteen auxiliary policemen

## OHIO MOTORISTS MAY FACE 40 MILE SPEED LAW

COLUMBUS, Aug. 8—Ohio motorists, unless they comply with President Roosevelt's proclamation asking observance of a 40-mile speed limit as a means of conserving tires, may be forced to do so in the future, Governor Bricker said today, indicating that the next legislature will be asked to reduce the present 30-mile speed limit to 40 miles.

If the speed limit is reduced, the governor said, those exceeding 40 miles an hour would be subject to fines or jail sentences.

4. Just as consistent and continued reports from British and especially Chinese sources both in London and the Far East that Japan has massed an army of well over one half-million men and 1,000 planes along Russia's eastern borders and is preparing to stab Russia in the back.

5. The lack of any major Japanese offensive on any front since the battle of Midway more than two months ago and no indications that they are preparing to attempt any major offensive against either Australia, India, Alaska or the American mainland.

The six were landed with two others, both of whom were spared the death penalty, from German submarines on the coasts of Long Island and Florida in mid-June.

All six were electrocuted in the District of Columbia jail during the forenoon.

The announcement confirmed a 24-hour "beat" by International News Service that serves the Circleville Herald among other papers.

Announcement of the executions was made by the Presidential secretary Stephen Early at 1:25 p. m.

The sextet—Warner Thiel, John Edward Kerlin, Heinrich Harm Heinck, Robert Quirin and Hermann Neubauer and Herbert Haupt—were originally slated to die between midnight and dawn Friday morning but were given an eleventh-hour reprieve when Mr. Roosevelt decided to give further study to the record of Haupt, the 22-year-old "baby" of the saboteur crew.

The President, after further consideration, finally decided to approve the military commission's recommendation for the death penalty against Haupt. So, the youngster died with his five colleagues in the electric chair.

Two other Nazi invaders—George John Dasch and Ernest Peter Burger—were given sentences of life imprisonment by the military commission. Mr. Roosevelt approved this mercy verdict, because both Dasch and Burger apparently aided the government in capturing all eight and recovering huge caches of explosives in the sands of Long Island and Florida beaches.

There were several signs during the night that the Nazis were about to die. One was the action of prison authorities in ordering twenty trustees back from the prison laundry 45 minutes before their usual workday ends, so they could be locked in their cells before midnight.

Just before midnight, a group of fifteen auxiliary policemen (Continued on Page Eight)

## OHIO MOTORISTS MAY FACE 40 MILE SPEED LAW

COLUMBUS, Aug. 8—Ohio motorists, unless they comply with President Roosevelt's proclamation asking observance of a 40-mile speed limit as a means of conserving tires, may be forced to do so in the future, Governor Bricker said today, indicating that the next legislature will be asked to reduce the present 50-mile speed limit to 40 miles.

If the speed limit is reduced, the governor said, those exceeding 40 miles an hour would be subject to fines or jail sentences.

## FRED WATTS TO QUALIFY FOR AIR INSTRUCTOR

Science Teacher Also To Guide Aeronautics Classes At High School

### BOYS, GIRLS ADMITTED

Full Unit Of Credit Will Be Awarded Pupils Completing Required Work

Fred Watts, 118 West Mill street, teacher of sciences at Circleville high school, will enroll at Ohio State university next Monday for a three week course in aeronautics training preparatory to teaching the subject to Circleville high school students when school starts September 21.

Watts agreed to take the course when requested by Superintendent Frank Fischer. His expenses will be paid by the board of education.

The school administrator said Saturday that boys and girls of the upper two classes, junior and senior, who have a background of sciences, may elect to take the course. A full unit of credit will be given. However, students choosing to take aeronautics must have studied science.

The subject is the first given as the result of a federal request here. Many other schools of south central Ohio are giving their students an opportunity to learn fundamentals of aviation during the next year.

J. Wray Henry, high school principal, will enroll Sunday at Purdue university, Lafayette, Ind., in a War Department school of training for civilian protection in case of emergency. Mr. Henry was to leave Circleville Saturday for Lafayette.

The school, conducted by the Army, is the only one in this section of the country.

### STARS SAY—

For Saturday, August 8

A PARTICULARLY lively and interesting day is forecast from the prevailing astral operations and all should move under high tempo, and along entirely constructive lines. The mentality should be alert, clever, as well as subtle and shrewd and should push the energies to important goals of accomplishment. Investments and real estate should increase, with elders lending solid support.

Those whose birthday it is may anticipate an unusually lively and exciting day, with all manner of affairs moving under stress if not tumult and turbulence. This would be hazardous to excellent constructive accomplishments, under the spur of fine mental abilities of a versatile, brilliant and also subtle quality. Property, investments and possessions should accumulate, with elders, relatives and sound organizations assisting.

A child born on this day should be versatile in intellectual and social talents, with sound abilities and judgment.

For Sunday, August 9

SUNDAY'S horoscope holds all the testimonies of a happy, prosperous and enjoyable day, with much festive celebration and merrymaking, probably in honor of a romantic or sentimental occasion. This should be indulged with unusual zest, albeit interrupted by a surprising occurrence.

Those whose birthday it is may look for a year of great enjoyment and happiness, in which some outstanding domestic, affectional, romantic or social event may demand paramount attention. However, any business in connection with such hospitality or celebration would prove profitable. The happy course of events might

**ONE MINUTE PULPIT**  
The sleep of a laboring man is sweet, whether he eat little or much; but the abundance of the rich will not suffer him to sleep.—Ecclesiastes 5:12.

A son was born Friday in Berger hospital to Mr. and Mrs. Eugene Davis, 373 Walnut street. At present there are six little boys in Berger hospital, all born during the last week.

Kiwanians are expecting an interesting program at their meeting Monday evening in Hanley's tearoom when James Jeffers of Columbus speaks on "Glimpses of Alaska". The talk is expected to cover several phases including the land's beauty and resources and its strategic value in war time.

Miss Alice Mae Barton of Adelphi, a member of Circleville grade school faculty, received a degree of bachelor of science in education at Wilmington college exercises conducted this week. Miss Jane A. Welliver of Amanda received an elementary teacher's diploma.

J. Rodney Shaw of Brown county has been named athletic coach, physical education and science instructor at Stoutsville high school.

Kenneth Christy of Guysville, O., has been added to the Gibsonville high school faculty to serve in three positions. He will succeed Byron Eby, formerly of Circleville, as coach-principal, and will take the place of Harold Potts as superintendent. Mr. Eby has gone to Roseville and Mr. Potts to McArthur.

Attorney Charles H. May is making a good recovery in Grant hospital, Columbus, where he recently underwent several operations. He is permitted to sit up and has taken several short strolls in the hospital corridors.

Miss Myrtle A. Root, West Ohio street, who underwent a major operation recently in Columbus, has recovered and is able to resume her usual duties.

Two Pickaway county children, Susan, daughter of Mr. and Mrs. Warner Hedges of near Ashville, and Willa Mae, daughter of Mr. and Mrs. Loring Leist of Circleville route 4, underwent tonsil operations Saturday in Berger hospital.

Mrs. Joseph Rooney, East Main street, is reported a little improved in Berger hospital. She was seriously ill Friday following the birth of a son Thursday night. Her condition remains serious, hospital attaches said, although some improvement is noted.

Mrs. Mabel Westenhaver, 954 South Pickaway street, submitted to surgery Friday at Doctor's hospital, Columbus.

Miss Virginia Marion, North Scioto street, has resigned as third and fourth grade teacher at Muhlenberg township school to accept similar employment in the Dayton city system. A former Circleville teacher, she has been at Muhlenberg for three years. No successor has been named at the latter school.

# CONGRESS

I want the VOTERS of the Eleventh Congressional District to endorse me and I want them to be governed by the type of campaign I have made in this Primary, and not by the suggestion of any group or Committee.

I never sought endorsement from any group, political or otherwise; I believe that pre-primary endorsement by Political Committees is bad practice and that it should cease.

Every Candidate should be strong enough to stand on his own during a Primary without any endorsement or support from any group, Political or otherwise. If he secures the nomination, then the party knows that it has an aggressive, hard working Candidate who is not controlled by any special group, and they may expect a united effort to elect him.

Regardless of any published endorsements, I have the unsolicited support of hundreds of Committeemen who do not approve of pre-primary endorsements,—men who appreciate political honesty and who are firm in their belief that I should be nominated.

The support that I am receiving from the individual members of the Clubs and the Civic, Religious, Professional and Industrial groups with which I am associated, the support of individual members of the fifteen Fraternal groups in which I hold membership, the support of the many Labor Unions, and of members of all patriotic war groups, has all been voluntary and unsolicited.

I am duly grateful for this support and have asked none of them to use the Press as a means of publicizing the high esteem with which they regard me.

I am depending upon the intelligence of the voters themselves to decide for whom they will vote, and if I am nominated, I am promising you a campaign in this District that will be aggressive and effective.

My record of constructive accomplishment, my confidence in my ability to serve you honestly and faithfully, my capacity and ability to work, and the fact that you can discuss your problems with me without fear of betrayal, prompts me to solicit your vote and influence Tuesday.

Democrat blank ballots, left at headquarters by some wise candidate looking for business, are getting no small amount of notice and use, giving the primary voters some idea in advance of just how they'll perform Tuesday and who is to be when selecting the good ones.

HIGHLIGHTS ON THE SUNDAY SCHOOL LESSON 8-5

By NEWMAN CAMPBELL (The International Uniform Lesson on the above topic for Aug. 9 is Genesis 18, the Golden Text being James 5:16, "The supplication of a righteous man availeth much.")

ONE DAY, Abraham was sitting in front of his tent enjoying what shade he could get there from the shadow of the tent as the day was hot. Coming toward him were three men, and Abraham must have recognized that they were no ordinary visitors. It is customary in the Orient for a man to greet visitors by first falling to his knees in front of them, then touching his forehead to the ground. Abraham did this, and also hastened into the tent, told his wife, Sarah, to take three measures of fine meal and make cakes of them.

You notice we spell his name Abraham now, while last week we spelled it Abram. God had entered into a covenant with him and told him that his name should no more be called Abram, but Abraham.

Abraham also ran to his herd and caught a calf and gave it to a young man to have it killed and dressed for a feast. He took butter (curdled milk) and milk, and when the feast was ready he served it to the three men under an oak tree, "and they did eat."

One of these men was the Lord, for the account speaks of "them," or "the men," and sometimes "the Lord said." On this occasion "they said" to Abraham, "Where is Sarah, thy wife?" Abraham said she was in the tent. Then He (the Lord) said He would return again and that Sarah should have a son. Sarah was listening inside the tent, and she could not help laughing inside herself to think that she, an old woman, could have a son.

Nothing Too Hard for God "Why does she laugh?" the Lord asked Abraham. "Is anything too hard for the Lord?" At this Sarah denied that she had laughed. She did not have the courage to acknowledge her fault, for it was a lack of faith that had made her laugh, and when she was found out, she was afraid.

The three men then rose and started toward the wicked cities of Sodom and Gomorrah, and Abraham went with them for a way.

And the Lord said, Shall I hide from Abraham, that thing which I do; seeing that Abraham shall surely become a great and mighty nation, and all the nations of the earth shall be blessed in him?"

Then the Lord told Abraham that he was planning to destroy those cities because they were so wicked. Now Lot, Abraham's nephew whom he loved, lived in Sodom, and Abraham said, "Wilt Thou also destroy the righteous with the wicked? Peradventure there be fifty righteous within the city: wilt Thou also destroy and not spare the place for the fifty righteous therein? That be far from Thee to do after this manner, to slay the righteous with the wicked: and that the righteous should be as the wicked, that be far from Thee: Shall not the Judge of all the earth do right?"

The Lord answered that if he found fifty within the city that were righteous He would not destroy it. Emboldened by his success, Abraham suggested that there might not be fifty, but forty-five that were good, and the Lord promised to spare the city for the forty-five. Then, said Abraham, "Peradventure there shall be forty there. And He said, I will not do it for thy sake."

Pleads for Thirty "Oh, let not the Lord be angry," said Abraham, "and I will speak: Peradventure there shall be thirty found there. And He said, I will not do it if I find thirty there."

Abraham next suggested that there might be twenty good men in the city, and got the Lord's promise that if it would not be destroyed if there were that many. And finally he asked the Lord not to be angry, but if there were only ten good, would He spare it for their sake? and the Lord gave His promise.

"And the Lord went His way, as soon as He had left communing with Abraham; and Abraham returned unto his place."

We know, of course, that God would not have destroyed the cities, even if Abraham had not interceded, and that He led Abraham on to plead with Him, showing the Lord how good and courageous was this man. Eventually, when the cities were destroyed four people were saved, Lot, whom Abraham loved, his wife and two daughters. Who knows what we may do for our loved ones by interceding for them as Abraham pleaded for those who might be righteous in the cities of Sodom and Gomorrah, especially his beloved nephew?

And finally, the lesson teaches us hospitality. How do we know those whom we entertain in our homes are? May they not prove to us, "angels unawares?"

## Farming in Southern Ohio

BY THOMAS E. BEERY

### Barley

What do you think about raising some barley, as a part of the small grain crop, in a general system of livestock farming? That is a question I have been asked many times. I have tried to get the answer from folks in the corn belt who raise barley. I have found several of these men and most of them tell me that it has a place in this system of farm organization.

J. C. Fawley and son Harry of Buford, Ohio raised four acres last year that made 135 bushels, and it ripened early in June, so that it could be combined and used as a part of the grain ration for hogs, almost a month before the wheat crop was ready to cut. They mixed it "50-50" with ground corn in the self feeder for hogs. It is higher in protein than wheat, and is very good as a part of the ration for dairy cattle.

I was on another corn belt farm where the yield was good but not as good as it would have been if the stand had been better. This man thinks it will pay to sow two and one half bushels per acre, instead of a bushel and three fourths as he did.

One objection to raising barley is the awns or beards, as they are commonly called, but if you combine the crop this is not a serious objection.

The time to sow it is about the same as for wheat, so it can follow the corn crop.

### Barley and Winter Oats

That's a combination crop I found on one farm that may have possibilities. It seems to be more profitable on tin, clay, upland soil than wheat, for wheat is often unprofitable on soil like this.

If you are having trouble to get wheat to show up on the right side of the book, try raising some barley next year, or you might try winter oats, if you are south of the oats belt.

### Solving the Rat Problem

That's hard to do, when they get well established on a farm, but if you have plenty of cats, and keep the stored grain and hay crops up off of the ground, so that the cats and dogs can get under them, you can prevent most rat troubles, a very successful corn belt farmer just told me.

He says he doesn't like to use rat poison, but he does use some that his county agent recommended, that is not poisonous to anything but rats. He finds that it is eaten readily if it is put on sardines.

When the rats get bad on this man's farm, he feeds his rats as regularly as he does his hogs, and he says that it pays him well to do it.

### Checking Corn

A very successful corn belt farmer reports checking all of his corn but one field this year, and the fox tail surely damaged it, he said. He is of the opinion, that over a period of years, you will raise more checked corn than if you drill it, for you have better control of the weeds, and they are a limiting factor in corn production.

This man thinks, too, that it will pay to check corn, if for no other reason than to have clean ground for the wheat seeding. If you have ever tried to get a good seed bed for wheat in a grassy corn field, you can appreciate what he said.

Most farmers are agreed that if you have a grassy corn field that the thing to do is to keep the discs very sharp, and to cut it up, right where it grows, so it won't "bunch up" when you try to drill your wheat.

### Winter Oats

Alva Overman, Hillsboro, Ohio RFD reports a yield of 40 bushels of winter oats to the acre, on

# Methodist Camp Meeting Concludes Excellent Session At Sunday Rites

Dr. Louis Wright, Head of Baldwin-Wallace School, To Be Speaker

Methodist camp meeting at Lancaster concludes its annual sessions at rites scheduled for Sunday starting at 9 a. m. Hundreds of church members and persons of other denominations have enjoyed one of the finest camp meetings in recent years. It started July 12 and has been the scene of many large gatherings.

Sunday's program follows: 9 a. m.: church school, Dean Eland L. Stradley, of Ohio State university, teaching the adult class. Miss Mary Dibble of Columbus will teach the young people's class.

10:30 a. m.: Sermon by A. J. Kestle, superintendent of the Portsmouth district. 2:30 p. m.: Sermon by Dr. Louis C. Wright, president of Baldwin-Wallace college, Berea, O. 8 p. m.: Sermon by Dr. Louis C. Wright.

Dr. Wright is a widely known educator and a brilliant speaker. Camp ground officials expect the Sunday addresses to be among the most interesting of the entire camp sessions.

Several Circleville and Pickaway county residents have played important roles in the conduct of the camp this year. H. W. Plum, North Court street, is secretary of the campground association, and Mrs. G. P. Hunsicker of Williamsport is one of the trustees. The Rev. Charles F. Bowman of Toledo, former Circleville pastor, is vice-president of the association which is headed by Arthur B. Vierebome of Lancaster, who is widely acquainted here.

Among outstanding men who have appeared at the camp meeting this year were Dr. Roy L. Smith of Chicago, Bishop Lester H. Smith of Cincinnati, Homer Rodeheaver, Dr. Joseph M. M. Gray and Dr. C. W. Brashares.

Sarah was listening inside the tent, and she could not help laughing inside herself to think that she, an old woman, could have a son.

Nothing Too Hard for God  
"Why does he laugh?" the Lord asked Abraham. "Is anything too hard for the Lord?" At this Sarah denied that she had laughed. She did not have the courage to acknowledge her fault, for it was a lack of faith that had made her laugh, and when she was found out, she was afraid.

The three men then rose and started toward the wicked cities of Sodom and Gomorrah, and Abraham went with them for a way.

"And the Lord said, Shall I hide from Abraham that thing which I do; seeing that Abraham shall surely become a great and mighty nation, and all the nations of the earth shall be blessed in him?"

Then the Lord told Abraham that he was planning to destroy those cities because they were so very wicked. Now Lot, Abraham's nephew whom he loved, lived in Sodom, and Abraham said, "Wilt Thou also destroy the righteous with the wicked? Peradventure there be fifty righteous within the city: wilt Thou also destroy and not spare the place for the fifty righteous therein? That be far from Thee to do after this manner, to slay the righteous with the wicked: and that the righteous should be as the wicked, that be far from Thee: Shall not the Judge of all the earth do right?"

The Lord answered that if he found fifty within the city that were righteous He would not destroy it.

Emboldened by his success, Abraham suggested that there might not be fifty, but forty-five that were good, and the Lord promised to spare the city for the forty-five. Then, said Abraham, "Peradventure there shall be forty there. And He said, I will not do it for forty's sake."

Plends for Thirty  
"Oh, let not the Lord be angry," said Abraham, "and I will speak: Peradventure there shall be thirty found there. And He said, I will not do it if I find thirty there."

Abraham next suggested that there might be twenty good men in the city, and got the Lord's promise that it would not be destroyed if there were that many. And finally he asked the Lord not to be angry, but if there were only ten good, would He spare it for their sake? and the Lord gave His promise.

"And the Lord went His way, as soon as He had left communing with Abraham; and Abraham returned unto his place."

We know, of course, that God would not have destroyed the cities, even if Abraham had not interceded, and that He led Abraham on to plead with Him, showing the Lord how good and courageous was this man. Eventually, when the cities were destroyed, the four people were saved. Lot, whom Abraham loved, his wife and two daughters. Who knows what we may do for our loved ones by interceding for them as Abraham pleaded for those who might be righteous in the cities of Sodom and Gomorrah, especially his beloved nephew?

And finally, the lesson teaches us hospitality. How do we know what those whom we entertain in our homes are? May they not prove to us, "angels unawares?"

## KINGSTON

Mrs. Leo Curtis and Mrs. Wallace Evans returned home Saturday afternoon after a week's vacation at a southern Ohio vacation home in Cincinnati.

Mrs. Anna Kephart and daughter Miss Ruth were guests of Rev. and Mrs. Leroy R. Wilkins a few days last week. Mrs. Kephart is a sister of Rev. Wilkins.

Teachers and children of the primary department with Miss Margaret Thomas of the Methodist Sunday School enjoyed a picnic supper at the Border's Road-side park Tuesday evening.

Mr. and Mrs. D. H. Dreishach entertained Sunday evening to dinner, Mr. and Mrs. E. O. Crites and Mr. and Mrs. Erin Dreishach and daughter Roselyn of Circleville, Mr. F. I. Rittenour, Miss Ora Rittenour and Mrs. George Wolfe of Kingston.

## Farming in Southern Ohio

By THOMAS E. BEELEY

### Barley

What do you think about raising some barley, as a part of the small grain crop, in a general system of livestock farming? That is a question I have been asked many times. I have tried to get the answer from folks in the corn belt who raise barley. I have found several of these men and most of them tell me that it has a place in this system of farm organization.

J. C. Fawley and son Harry of Buford, Ohio raised four acres last year that made 135 bushels, and it ripened early in June, so that it could be combined and used as a part of the grain ration for hogs, almost a month before the wheat crop was ready to cut. They mixed it "50-50" with ground corn in the self feeder for hogs. It is higher in protein than wheat, and is very good as a part of the ration for dairy cattle.

I was on another corn belt farm where the yield was good but not as good as it would have been if the stand had been better. This man thinks it will pay to sow two and one half bushels per acre, instead of a bushel and three fourths as he did.

One objection to raising barley is the awns or beards, as they are commonly called, but if you combine the crop this is not a serious objection.

The time to sow it is about the same as for wheat, so it can follow the corn crop.

### Barley and Winter Oats

That's a combination crop I found on one farm that may have possibilities. It seems to be more profitable on tin, clay, upland soil than wheat, for wheat is often unprofitable on soil like this.

If you are having trouble to get wheat to show up on the right side of the book, try raising some barley next year, or you might try winter oats, if you are south of the oats belt.

### Solving the Rat Problem

That's hard to do, when they get well established on a farm, but if you have plenty of cats, and keep the stored grain and hay crops up off of the ground, so that the cats and dogs can get under them, you can prevent most rat troubles, a very successful corn belt farmer just told me.

He says he doesn't like to use rat poison, but he does use some that his county agent recommended, that is not poisonous to anything but rats. He finds that it is eaten readily if it is put on sardines.

When the rats get bad on this man's farm, he feeds his rats as regularly as he does his hogs, and he says that it pays him well to do it.

### Checking Corn

A very successful corn belt farmer reports checking all of his corn but one field this year, and the fox tail surely damaged it, he said. He is of the opinion, that over a period of years, you will raise more checked corn than if you drill it, for you have better control of the weeds, and they are a limiting factor in corn production.

This man thinks, too, that it will pay to check corn, if for no other reason than to have clean ground for the wheat seeding. If you have ever tried to get a good seed bed for wheat in a grassy corn field, you can appreciate what he said.

Most farmers are agreed that if you have a grassy corn field that the thing to do is to keep the discs very sharp, and to cut it up, right where it grows, so it won't "bunch up" when you try to drill your wheat.

## OAKLAND

Don Sharp of Camp Folk, La., is spending a ten day furlough with his parents, Mr. and Mrs. Vance Sharp. On Thursday evening he and a group of friends were entertained at supper at the Leroy Arter home, on Friday evening at the home of Mrs. Catherine Van Fossen and sons, and on Monday evening at the E. D. Lutz home.

Other supper guests were Misses Nana Cordle and Georgie Sharp. Evening callers were Mrs. Della Sharp, Agnes, Maxine, Jo, George and Carl Sharp, Richard Sohrensen, Wendell Mowery, Mr. and Mrs. Guy Mowery.

Wilbur Heigle is suffering from injuries received from a fall.

Sunday evening callers at the Guy Mowery home were Mr. and Mrs. Charley Flowers, Ireta and Wanita of Bremen.

Mr. and Mrs. Guy Mowery, Mr. and Mrs. Ray McClelland, Leslie, Eloise and Elsie McClelland, Wendell Mowery Eldon, Carl and Roberta Harmon attended a dinner at the home of Mrs. Eliza McClelland in Laureville honoring her grandson Merwin W. McClelland who is spending his furlough at the home of his parents, Mr. and Mrs. Pearl McClelland.

Sunday dinner guests at the Vance Sharp home honoring their son Don were Mr. and Mrs. Charles Flowers, daughters, Wanita and Ireta of Bremen, Leota and June Flowers of Westerville, Mr. and Mrs. James Sharp and son Paul of Thurston, Mr. and Mrs. Layman Sohrensen and Richard of Lancaster, Mr. and Mrs. Leroy Arter, Leo Britch, Dorothy Sisco, Pauline Harvey, Catherine Hedger, Mr. and Mrs. Alford Sharp and children. Afternoon callers were Mr. and Mrs. Glenn Weaver, daughter, Mr. and Mrs. Roy Note-stone, Creighton Note-stone of South Perry, Phyllis Drum, Adelphi, Mr. and Mrs. E. D. Lutz, Edward Lutz and Stewart Dennis, Mr. and Mrs. Joe Sharp and Glen of Columbus.

The late Sir Edwin Cooper, recently deceased, designed more important buildings in London, England, than any other architect since Sir Christopher Wren. He was made a knight in 1923 in recognition of his work.

### LOANS TO STUDENTS

MOST people may not know it, but Congress has just appropriated \$5,000,000 for loans to college students within the next 12 months. These loans will be made through colleges and universities to students who have completed two years of training in engineering, physics, chemistry, medicine, and "such other technical and professional fields as the chairman of the War Manpower Commission may determine are necessary in connection with the war effort."

The loans go to students who agree in writing to participate, until otherwise directed, in courses approved by the War Manpower Commission, and who further agree to engage, for the duration of the war, in such employment as the commission may direct. If the student is drafted before completing his course, the loan will be canceled; otherwise it must be repaid with two and one-half percent interest.

There is one of the wisest bits of legislation that the present Congress has passed. Many students have been unable to take summer courses because they must earn money. Surveys have shown that at various state universities as many as 70 to 90 percent of the male students earn a large part of their tuition expenses by summer work. If they are relieved of these financial burdens, they can concentrate on studies important for the war effort. With modifications, these loans to college students might be continued in peace time. Any measure that adds to popular education, is increasing the national assets.

### SIDEWALKS

SIDEWALKS are suffering from the war. Meadville, Pa., finds that the falling off in the number of automobiles is causing added wear and tear on its pavements. A general face-lifting is called for by City Engineer Roy L. Phillips. So far 250 property owners have been asked to improve the sidewalks in front of their homes or places of business, and none so far has refused.

With traffic on wheels decreasing, other cities than Meadville will find their sidewalks called on to bear new burdens.

### ICE GIRL

PHILADELPHIA has a girl iceman, Jeanette Fanelli, 17 years old and red-headed. She is working for her father, having replaced his helper, who was recently called into the army. She will carry 50 pounds of ice on her shoulder without a quiver.

A female iceman is something decidedly new. Will there be women piano-movers next? The powerful Katrinka may yet have to look to her laurels.

This shaking of the rubber tree is bringing in a wonderful crop.

### SECOND FRONT IS HERE

WASHINGTON—Much we may hate to admit it, any candid appraisal of the war must recognize that the Second Front today, instead of being in France, Belgium or Holland, actually is off the Virginia Capes.

It stretches just a few miles off our coast from New York and the oil-stained Jersey beach resorts to Cape Hatteras, Miami, the Gulf of Mexico and the Caribbean—where hundred of ships have been sunk in the greatest marine graveyard in history. Along this Second Front one part of our Navy is held "frozen", thus preventing its participation in the conveying of troops and supplies to Britain. And along that front so many merchant ships have been sunk that the problem of sending an American army to England is doubled and quadrupled.

Thus, we cannot escape the fact that up to now—and even though the shipping losses have been reduced a bit—Hitler has successfully prevented us from establishing our Second Front in Europe by establishing his second front at our front door.

It is to get at the root of these submarine disasters, and try to help remove Hitler's Second Front from our own coastal waters that these articles are written.

First let it be said that though the Navy has made plenty of mistakes, it faces thousands of miles of coast line, deep water and a tougher job than the British. Also it faces a problem which few people realize—the expert espionage information supplied to Nazi submarines by Nazi agents in the Americas.

And as long as Nazi submarines know in advance where to lie in wait for a ship, no navy, no matter how good, can be entirely effective.

### HOW IT WORKS

To illustrate, here is the experience of a member of the MERRY-GO-ROUND team who recently returned from a survey of the Caribbean Sea. After flying all day across the sea, from Venezuela to Haiti to Cuba, the pilot of the plane remarked:

"Did you see any ships anywhere?"

"No, did you?"

"Not a one. And we flying at 10,000 feet, with wide range of vision. But I didn't see a single ship all day."

"Then how does it happen," the pilot was asked, "that a submarine, lying on the surface, with no range to speak of, can spot the ships and sink them?"

"The answer," said the pilot, "is that the subs don't hunt out the ships. They get information of ship departures, and they lie in wait for the kill. They don't cruise around looking for ships. The ships come to them."

The pilot was right. The success of the German submarine campaign is the result of a highly efficient system of espionage and communication, which allows submarines (Continued on Page Six)

Clifton Fadiman gave the world a neat idea the other night on "Information Please." You don't mind our swiping it, of course, Mr. Fadiman?

"What would you do with that \$37.50 if the Japs were marching up the street?"

But if you and a lot of other fellows had bought bonds this year, maybe next year you'd be marching down the street, in freedom, with cheers, instead.

#### Guest Once Bedridden

"Then I saw a woman to whom I have said goodbye many times. And I really mean goodbye. She doesn't live in my own town. About ten years ago it was found that she had tuberculosis and they did a pneumothorax on her. Well, I see her every year in her sanitarium retreat. I kissed her goodbye last year; she was bedridden; I never expected to see her again. Here she is, walking around and as merry as a grig. She will be invited to the party."

"I will never forget the case of a Mr. X. He was pretty sick and decided to go East for a consultation. The doctor in the East told him he might as well be frank with him. If he had any affairs to put in order, said the doctor, he had better do so because he wasn't going to live more than six months. He came back home, sold out his business, made a new will and went home to die. That was 15 years ago and he beat me at golf the other day."

## Mark's Wife

by MARIE BLIZARD  
WRITTEN FOR AND RELEASED BY CENTRAL PRESS ASSOCIATION

### SYNOPSIS

BARBARA WISTER, former actress, finds herself a widow at 27, when her husband, MARK, a newspaperman-turned-author, dies in South Wintridge, the small town in which they had taken up residence. The evening after the funeral, she is visited by young DR. TONY BRADSHAW, young physician of the town.

### CHAPTER TWO

"ROT!" TONY hid his eyes, making a great business of lighting his pipe after Barbara said that, because it was true, the town did call the Wisters "queer."

"They were right, my dear," Barbara continued, "and they resent us and I don't blame them. They weren't prepared for us and we—

we didn't try to fit into the picture as we should have. South Wintridge is . . . well, I don't have to tell you. It's the worst New England town. Conservative, tight, well-ordered. I can see why and how they think of . . . of the Wisters."

"Why should you?" he said angrily.

"Because I want to," she answered simply. "You see, I'd like to belong, be one of them instead of what they think I am."

The voice inside of him protested silently. He would not have Barbara Wister any different than she was. Vital, warm-hearted, impulsive, all these things he had seen in her the first time that he had come across the Wisters one day at the lake a year before.

"I can look back to when we first came," she was saying, "and what a shock we must have been! All of us brown as gypies. Mark, thin, dark and so odd to look at, with his thatch of black hair and his skinny legs under white shorts."

"The man from Mars," he used to call himself. And I, a woman in faded slacks and a brilliant bandana, with a practically naked baby cradled in books in the back of our station wagon."

The old perplexity came back to him as it always did when he thought of Barbara and Mark Wister as he saw them together and he had seen them often, been their only friend in South Wintridge. He was familiar with Wister, yet he never knew him; he would never know what had drawn them together.

Barbara, he saw, had forgotten him. Her voice had a faraway quality.

"Mark had pneumonia the winter Sonny was born and the doctor said he'd have to get away from the city. We couldn't afford a trailer so we bought a station wagon and a tent and went to Florida. Then in the summer we came here."

"Why did you choose this place?"

"We closed our eyes and put a finger on a map of New England, opened our eyes and saw that it was South Wintridge. When Mark found out that there was no artist's colony, no writers here, he decided that this was the place. Mark hated 'colonies,' groups, hated patterns,

being a part of a thing, or identifying himself with a group. . . . We thought we were only going to stay that one summer, but when we came back the next year and Mark had sold his book, we bought the house and now . . ."

They both knew what NOW meant.

"Now you'll go back to the city?" The forlorn note escaped him, but when he looked at her from under his lashes, he saw that she had not been aware of it.

She was shaking her head, saying, "I haven't anything to go back to, Tony."

"But your home? The place you came from?"

Again she shook her head. "I never had a home, my dear. My mother died when I was five and my father, who was a foreign correspondent, dragged me around the world with him. I lived in boarding schools and hotels until he died when I was 19. Even then, I always knew what I wanted. Once, when I was 14, I spent a summer in a little place like this. I lived with a big family of brothers and sisters and even a grandmother and grandfather. I pretended I was one of them. I cried when I had to go back to school. I never cried when I had to leave any other place. It was the first place where I felt . . . where I wasn't lonely. Do you understand?"

Tony Bradshaw was 28, but now he felt something queer in his throat. He nodded. After a moment, he grumbled, "What did you do after your father died?"

"I had to go to work. Dad didn't leave a nickel. I haven't much education, Tony, and I didn't, and still don't know how to do anything useful. . . . One of Dad's friends was a theatrical producer and he gave me a small walk-on part. After that I got other small parts. I never was any good, never wanted to be. I hate the tired part of the theater. You have to love it to see its glamorous side, and I never loved it."

He cleared his throat, being again without the right words, and ventured, "But it is a way to earn a living."

"Yes," she murmured, her eyes slipping away from him into the past, seeing the years when she'd lived in shabby theatrical boarding houses, remembering the ever-present fear of running out of her meager funds. "Then I met Mark," she said.

And now she wondered what Mark had seen in her that he should have said that night three weeks after their meeting. "Don't worry about your show closing. We're going to get married."

"Did you know him long?" Tony asked.

"Not very long," she said aloud, and to herself, "And never very well." She had never known him because she never knew what went on in his mind, so different from her own. He never talked to her about the things that he was thinking, or writing. It seemed impossible to her now that they could have lived so intimately, yet be worlds apart.

She forgot the doctor sitting

across from her, thinking of Mark, and of Sonny asleep upstairs and that Mark should have provided in some way for what lay ahead of her. As if the burden of her thoughts was heavy, her head fell forward.

Tony came to her side and, raising her chin, looked into her face with a searching professional look. "What have you had to eat today?" he asked gruffly.

"I had a cup of tea a little while ago."

"Tea?" He snorted. "Off to bed with you, Barbara. I'll look after the furnace and lock up for you. I'll bring something up to you. Get into bed and put something warm around you."

"Tony, the neighbors . . ."

He snorted. "She gave in then and went upstairs, past the door of the big front room that had been hers and Mark's, and into the little room beside Sonny's. She undressed hastily and got into bed with her pajamas and bathrobe on.

He came up in a few minutes with a bowl of hot soup and a glass of water and said, "One knock-out pill for you, my girl, and one dish of good hot broth, both of which you will down while I get my coat on."

The soup was good. Its warmth spread through her, and the sedative began to work quickly. She heard him rattling the furnace, his footsteps going the rounds downstairs and then he came back.

"Tony, thank you for being so good. And the others . . . the neighbors, they've been good, too. Her voice took on a different note that was a little desperate. "I'm going to stay in South Wintridge, Tony, find some way to live here."

He looked at her for a moment. Then abruptly he said, "Good night, Barbara. Call me if you need anything at all."

All he had to offer her was himself, and that he could not do for a long time, if she would have him. It seemed little enough now that he knew she had a desperate, immediate need. The last thing she said told him that Mark Wister had left her penniless.

His day had been a long, hard one, but he knew that he couldn't sleep, so he turned the nose of his car toward the hills and drove until the cold air made his eyelids heavy.

It was after two when he crossed the bridge and took the road to his house that led past the railroad station.

The Boston Express that usually roared through the sleeping town had come to a stop and the doctor saw a small group of people leave the train and move toward a big, dark car. He wondered, with little curiosity, who was arriving. Some one from the Kileran mills, someone with enough influence to have the express stop, he thought.

He left his car in the drive that ran around the old brick house and knocked the ashes from his pipe against the wooden sign that had hung beside the door for three generations. Anthony Bradshaw, M. D., it said in letters long since weather beaten.

### LOANS TO STUDENTS

MOST people may not know it, but Congress has just appropriated \$5,000,000 for loans to college students within the next 12 months. These loans will be made through colleges and universities to students who have completed two years of training in engineering, physics, chemistry, medicine, and "such other technical and professional fields as the chairman of the War Manpower Commission may determine are necessary in connection with the war effort."

The loans go to students who agree in writing to participate, until otherwise directed, in courses approved by the War Manpower Commission, and who further agree to engage, for the duration of the war, in such employment as the commission may direct. If the student is drafted before completing his course, the loan will be canceled; otherwise it must be repaid with two and one-half percent interest.

There is one of the wisest bits of legislation that the present Congress has passed. Many students have been unable to take Summer courses because they must earn money. Surveys have shown that at various state universities as many as 70 to 90 percent of the male students earn a large part of their tuition expenses by Summer work. If they are relieved of these financial burdens, they can concentrate on studies important for the war effort. With modifications, these loans to college students might be continued in peace time. Any measure that adds to popular education, is increasing the national assets.

### SIDEWALKS

SIDEWALKS are suffering from the war. Meadville, Pa., finds that the falling off in the number of automobiles is causing added wear and tear on its pavements. A general face-lifting is called for by City Engineer Roy L. Phillips. So far 250 property owners have been asked to improve the sidewalks in front of their homes or places of business, and none so far has refused.

With traffic on wheels decreasing, other cities than Meadville will find their sidewalks called on to bear new burdens.

### ICE GIRL

PHILADELPHIA has a girl iceman, Jeanette Fanelli, 17 years old and red-headed. She is working for her father, having replaced his helper, who was recently called into the army. She will carry 50 pounds of ice on her shoulder without a quiver.

A female iceman is something decidedly new. Will there be women piano-movers next? The powerful Katrinka may yet have to look to her laurels.

This shaking of the rubber tree is bringing in a wonderful crop.

## 'ROUND CIRCLEVILLE . . . Hour by Hour

Pages From the Diary of An Antiquated Reporter:

Up to another cool morning and while waiting for the morning prints did tour the back yard with the dog, noting chiefly the morning glories. Those big blue ones of today are a far cry from the ones of my childhood. I remember them growing up one side of the barn and how much we and the neighbors thought of them. Quite beautiful for the times. But these of today really are something. Yes, I think the morning glory for beauty stacks up well with most flowers.

Came the paper and in it nothing heartening. Russia is being beaten back and is in a dangerous position. More details on the story that our general in Australia has not enough with which to fight. Japan about ready to jump on Russia's back. More ship sinkings. Our production slipping. Not a pretty picture at all. In fact, one to

All about the village in search of news and round none. Everyone talking war and the fate of the eight German spies. Everyone has a different idea as to how those men should be handled. And almost everyone believes that they should have been executed as soon as found. Wrong there, for those men have done a lot of talking and still are talking. And from the talk we gain information of value. That information would not have been obtained from

dead men. If we have all we can get out of them then the time has come for their execution.

Begins to look as though there will be only one labor group telling the politicians what to do. Must have been quite worrying with two labor factions in the political hair, each demanding top honors and the juiciest of the plums. And labor will get more than ever under the new set-up. Well, we are not having quite so many strikes, and that is something.

Came a knock and there was Clark Will with a dozen samples of the Country Gentleman corn he raises. And anyone who thinks that is not real sweet-corn just does not know his corn. Had it for dinner and never have I tasted better. Clark prefers it to Golden Bantam and I know it was much better than any Bantam I have had this year.

## Invite to Party Only Those Once "Doomed" by Doctors

By LOGAN CLENDENING, M. D.

"I'M GOING to invite guests for a party which is to be called the 'Party for the Utterly Doomed,'" said my old friend, Dr. Adrian Gibbs, yesterday afternoon.

"I have just been humiliated by a visit from a patient; I told his wife 15 years ago he would be dead in three months. She got a better doctor for him, I guess. She couldn't have got a worse one from the standpoint of prophecy."

Dr. Clending will answer questions of general interest only, and then only through his column.

Guest One Bedridden  
"Then I saw a woman to whom I have said goodbye many times. And I really mean goodbye. She doesn't live in my own town. About ten years ago it was found that she had tuberculosis and they did a pneumothorax on her. Well, I see her every year in her sanitarium retreat. I kissed her goodbye last year: she was bedridden; I never expected to see her again. Here she is, walking around and as merry as a gig. She will be invited to the party."

"I will never forget the case of a Mr. X. He was pretty sick and decided to go East for a consultation. The doctor in the East told him he might as well be frank with him. If he had any affairs to put in order, said the doctor, he had better do so because he wasn't going to live more than six months. He came back home, sold out his business, made a new will and went home to die. That was 15 years ago and he beat me at golf the other day."

Prophecy Hazardous  
"Yes, prophecy is one of the most hazardous parts of our business. That is why when you get older and more experienced, you indulge in it less and less."

## Looking Back in Pickaway County

**FIVE YEARS AGO**  
William Heffner, 95, a pioneer in the grain business in Pickaway county, died at his home on East Mound street.

Harry E. Monteluis was elected president of division 4, Knights Templar, at the first annual picnic for knights and their wives held in the Chillicothe armory.

Mr. and Mrs. D. H. Marcy of Circleville and Mr. and Mrs. Carroll Hughes of Williamsport left for Washington, D. C., for a week's vacation.

**10 YEARS AGO**  
J. A. Abernathy, son of Mrs. Marie Abernathy of Columbus formerly of Circleville, was married to Miss Dorothy Sheeran, daughter of Mr. and Mrs. W. H. Sheeran also of Columbus.

Former Congressman Martin L. Davey of Kent was to be asked by the state board of control to inspect the Logan Elm, historical tree in Pickaway township. The request for the inspection was made by the state archaeological and historical society. Mr. Davey headed a firm of tree experts.

Mrs. William Avis honored her daughter, Dorothy, at a party for 17 on her thirteenth birthday anniversary.

**25 YEARS AGO**  
Mrs. W. C. Bisell of Beltsville, Md., was a guest of Mr. and Mrs. Fred Fickardt, East Main street.

One of the most successful

"Long ago I had a patient who, in the middle of a highly successful business career, suddenly developed a serious infection and had a series of chills and was pretty sick."

Still a Long Way from Dead

"One night all the doctors in consultation gathered and told the family that he probably wouldn't live through the night. I went over to his bedside as I was leaving to give him a final handshake and he motioned for me to put down my ear. He was so weak I could just barely hear him whisper, but what he said was distinguishable. He said, 'I hope you have better luck on your next case.' I never expected to see him again, but something happened and I see him walking around every once in a while. He isn't the picture of health, but he is far from dead."

"That party for the once utterly doomed should be quite an affair."

**QUESTIONS AND ANSWERS**  
J. M.: Are egg whites harmful to a person who is in perfect health? I was told that no one should eat egg whites not only because they are hard to digest, but also because they destroy the flora and they contain nothing of any value? Is that true?

Answer: Egg white is a valuable protein and is not harmful to anyone unless they have an allergy to it. It is true that raw egg white is hard to digest, but cooked egg white is not. There is no truth in the idea that it destroys the flora.

**EDITOR'S NOTE:** Dr. Clending has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. ## Mark's Wife

by MARIE BLIZARD  
WRITTEN FOR AND RELEASED BY CENTRAL PRESS ASSOCIATION

**SYNOPSIS**  
BARBARA WISTER, former actress, being a widow at 27, when her husband, MARK, a newspaperman-turned-author, dies in South Wintridge, the small town in which they had taken up residence. The evening after the funeral, she is visited by young DR. TONY BRADSHAW, young physician of the town.

### CHAPTER TWO

"ROT!" TONY hid his eyes, making a great business of lighting his pipe after Barbara said that, because it was true, the town did call the Wisters "queer."

"They were right, my dear," Barbara continued, "and they resent us and I don't blame them. They weren't prepared for us and we didn't try to fit into the picture as we should have. South Wintridge is . . . well, I don't have to tell you. It's the perfect New England town. Conservative, tidy, well-ordered. I can see why and how they think of . . . of the Wisters."

"Why should you?" he said angrily.

"Because I want to," she answered simply. "You see, I'd like to belong to one of them instead of what they think I am."

The voice inside of him protested silently. He would not have Barbara Wister any different than she was. Vital, warm-hearted, impulsive, all these things he had seen in her the first time that he had come across the Wisters one day at the lake a year before.

"I can look back to when we first came," she was saying, "and what a shock we must have been! All of us brown as gypsies. Mark, tiny, dark and so odd to look at, with his thatch of black hair and his skinny legs under white shorts. The man from Mars," he used to call himself. And I, a woman in faded slacks and a brilliant bandana, with a practically naked baby cradled in books in the back of our station wagon."

The old perplexity came back to him as it always did when he thought of Barbara and Mark Wister as he saw them together and he had seen them often, been their only friend in South Wintridge. He was familiar with Wister, yet he never knew him; he would never know what had drawn them together.

Barbara, he saw, had forgotten him. Her voice had a faraway quality.

"Mark had pneumonia the winter Sonny was born and the doctor said he'd have to get away from the city. We couldn't afford a trailer so we bought a station wagon and a tent and went to Florida. Then in the summer we came here."

"Why did you choose this place?"

"We closed our eyes and put a finger on a map of New England, opened our eyes and saw that it was South Wintridge. When Mark found out that there was no artist's colony, no writers here, he decided that this was the place. Mark hated 'colonies,' groups, hated patterns,

being a part of a thing, or identifying himself with a group. . . . We thought we were only going to stay that one summer, but when we came back the next year and Mark had sold his book, we bought the house and now . . ."

"They both knew what NOW meant."

"Now you'll go back to the city?" The forlorn note escaped him, but when he looked at her from under his lashes, he saw that she had not been aware of it.

She was shaking her head, saying, "I haven't anything to go back to, Tony."

"But your home? The place you came from?"

Again she shook her head. "I never had a home, my dear. My mother died when I was five and my father, who was a foreign correspondent, dragged me around the world with him. I lived in boarding schools and hotels until he died when I was 19. Even then, I always knew what I wanted. Once, when I was 14, I spent a summer in a little place like this. I lived with a big family of brothers and sisters and even a grandmother and grandfather. I pretended I was one of them. I cried when I had to go back to school. I never cried when I had to leave any other place. It was the first place where I felt . . . where I wasn't lonely. Do you understand?"

Tony Bradshaw was 28, but now he felt something queer in his throat. He nodded. After a moment, he grumbled, "What did you do after your father died?"

"I had to go to work. Dad didn't leave a nickel. I haven't much education, Tony, and I didn't, and still don't know how to do anything useful. . . . One of Dad's friends was a theatrical producer and he gave me a small walk-on part. After that I got other small parts. I never was any good, never wanted to be. I hate the timed part of the theater. You have to love it to see its glamorous side, and I never loved it."

He cleared his throat, being again without the right words, and ventured, "But it is a way to earn a living."

"Yes," he murmured, her eyes slipping away from him into the past, seeing the years when she'd lived in shabby theatrical boarding houses, remembering the ever-present fear of running out of her meager funds. "Then I met Mark."

And now she wondered what Mark had seen in her that he should have said that night three weeks after their meeting, "Don't worry about your show closing. We're going to get married."

"Did you know him long?" Tony asked.

"Not very long," she said aloud, and to herself, "And never very well." She had never known him because she never knew what went on in his mind, so different from her own. He never talked to her about the things that he was thinking, or writing. It seemed impossible to her now that they could have lived so intimately, yet be worlds apart.

She forgot the doctor sitting

across from her, thinking of Mark, and of Sonny asleep upstairs and that Mark should have provided in some way for what lay ahead of her. As if the burden of her thoughts was heavy, her head fell forward.

Tony came to her side and, raising his chin, looked into her face with a searching professional look.

"What have you had to eat today?" he asked gruffly.

"I had a cup of tea a little while ago."

"Tea!" He snorted. "Off to bed with you, Barbara. I'll look after the furnace and look up for you. I'll bring something up to you. Get into bed and put something warm around you."

"Tony, the neighbors . . ."

He snorted. "She gave in then and went upstairs, past the door of the big front room that had been hers and Mark's, and into the little room beside Sonny's. She undressed hastily and got into bed with her pajamas and bathrobe on."

He came up in a few minutes with a bowl of hot soup and a glass of water and said, "One knock-out pill for you, my girl, and one dish of good hot broth, both of which you will down while I get my coat on."

The soup was good. Its warmth spread through her, and the sedative began to work quickly. She heard him rattling the furnace, his footsteps going the rounds downstairs and then he came back.

"Tony, thank you for being so good. And the others . . . the neighbors, they've been good, too." Her voice took on a different note that was a little desperate. "I'm going to stay in South Wintridge, Tony, and some way to live here."

He looked at her for a moment. Then abruptly he said, "Good night, Barbara. Call me if you need anything at all."

All he had to offer her was himself, and that he could not do for a long time, if she would have him. It seemed little enough now that he knew she was a desperate, immediate need. The last thing she said told him that Mark Wister had left her penniless.

His day had been a long, hard one, but he knew that he couldn't sleep, so he turned the nose of his car toward the hills and drove until the cold air made his eyelids heavy. It was after two when he crossed the bridge and took the road to his house that led past the railroad station.

The Boston Express that usually roared through the sleeping town had come to a stop and the doctor saw a small group of people leave the train and move toward a big, dark car. He wondered, with little curiosity, who was arriving. Someone from the Kilmer mills, someone with enough influence to have the express stop, he thought.

He left his car in the drive that ran around the old brick house and knocked the ashes from his pipe against the wooden sign that had hung beside the door for three generations. Anthony Bradshaw, M. D., it said in letters long since weather beaten.

## Dorothy Jane Fausnaugh, Glenn E. Skinner Wed

Services Read At  
Parsonage Of  
Church

In a quiet service Friday at 8:30 p. m. in the parsonage of the Methodist church, Miss Dorothy Jane Fausnaugh of 723 North Court street became the bride of Mr. Glenn E. Skinner of 465 East Main street. The bride is the daughter of the late Mr. and Mrs. Charles Fausnaugh and Mr. Skinner, the son of Mrs. Zelma Skinner and the late Mr. Wayne Skinner.

The Rev. V. C. Stump of the New Holland and Atlanta Methodist churches officiated, using the single ring ceremony of the church.

A smartly tailored natural color wool jersey frock was chosen by the bride for her wedding. She wore Kelly green accessories and a corsage of white rose buds and baby breath was pinned at her shoulder.

Miss Lucille McClure, 966 South Pickaway street, wore an attractive two-piece dress of printed jersey as she served as Miss Fausnaugh's attendant. Her corsage was of talliesman roses.

Mr. Bertus Bennett was best man for Mr. Skinner.

The new Mr. and Mrs. Skinner have planned a wedding trip of about one week through the North, after which they will live in an apartment on East Main street.

A graduate of Circleville high school and Capital University Business school, the bride is secretary to the assistant manager of Ralston Purina Co. and will continue with her work.

Mr. Skinner attended Bliss Business college, Columbus, after his graduation from Atlanta high school. He is bookkeeper for the Pickaway Dairy Cooperative association.

### July Marriage

Announcement is made of the marriage of Miss Melba Elizabeth Hill, daughter of Mr. and Mrs. H. G. Hill of Amanda route 2, to Mr. Wayne Winland, son of Mr. Creighton Winland of near Laurelville. The marriage was an event of July 31, the single ring service being read by the Rev. Samuel J. Bishop, an uncle of the bride, at his summer cottage at the Lancaster camp ground.

The new Mr. and Mrs. Winland have established their home on a farm near Gibsonville.

### Mr. Mrs. Campbell Honored

Honoring Private and Mrs. Paul Edward Campbell who were married Thursday in the Stoutsville Lutheran church, Mr. and Mrs. Walter Temple of Circleville route 4, parents of the bride, entertained at dinner Friday at 6:30 p. m. at their home.

Tall white tapers lighted the dinner table which was centered with a lovely wedding cake.

Covers were placed for the honor guests, Pvt. and Mrs. Campbell, Mr. and Mrs. Raymond Arledge, Miss Arabelle Thorne, Russell Lane, Earl Stant of Circleville; Mrs. Nellie Campbell, mother of the bridegroom, and Mr. and Mrs. Marvin Justice of Stoutsville and Mr. and Mrs. Temple and sons, Ben and Bobby, of the home.

### Real Folks' Club

Real Folks' club will meet at the home of Mrs. Minnie Heise, East Main street, Thursday at 5:30 p. m. for a lawn party. Families of members are invited to the affair. Guests are asked to take table service.

### U. B. Missionary Society

Women's Missionary society of the Pontius United Brethren church of Washington township met Friday at the home of Mrs. Orville Gibbs, East Franklin street. Miss Edwina Holderman, vice president, led the devotional and business hour.

Reading of letters from missionaries in foreign service comprised the informal program.

Mrs. Gibbs served simple refreshments during the social hour. Mrs. Robert Leist of Washington township will entertain the group at the September session.

### Family Party

Mr. and Mrs. Troy White, West Mound street, are entertaining at an informal party Saturday night at their cabin on Scippo creek on Mrs. White's farm in Pickaway township in honor of Lieutenant Dean White of the U.S.N.A.F., who is home on a short furlough. Members of the family and several close friends are expected for the evening.

Pickaway county rationing board acted Saturday to relieve congestion at its City Hall offices by requesting publication of an application form which will make it unnecessary for Circleville and Pickaway county housewives to apply in person at the office. The application blank is for Fall canning sugar allotments only and when sent to the rationing office must be accompanied by a stamped, self-addressed envelope. Each day from the hour the

bank may be used. Applicants are being urged to file by mail. The mail-in plan in brief is this:  
1. Clip out the application form which is published in Saturday's Daily Herald.  
2. Fill out the blank according to instructions on the form.  
3. Address an envelope to the War Price and Rationing Board, City Hall, Circleville, Ohio.  
4. Put in the envelope: (a) all the sugar rationing books your family has; (b) the application filled out and signed, and (c) a stamped envelope with your own address on it.  
The board will mail back the sugar certificates, which entitle each applicant to buy an amount of canning sugar, with the family books within a few days.  
"This mail-in plan," J. O. Eagleson, clerk of the board, said, "has been specially adopted to speed up issuance of canning sugar purchase certificates and to eliminate long waits in our office."

## FISCHER URGES CHEST TRUSTEES TO ATTEND MEET

Importance of Sunday afternoon's War Chest meeting was stressed Saturday by Frank Fischer, chairman of the War Chest campaign, when he urged all trustees to be present. The session will be in the Farm Bureau offices beginning at 1:30 o'clock.

"These are war days," Mr. Fischer said. "There is not a person on the board of trustees who is not very, very busy. This is one of the prime reasons why each has been honored by being included in the list. It is one of the reasons why the meeting has been set for Sunday."

Business to be transacted includes selection of dates for the drive, setting of a goal, a discussion though not final determination of what agencies shall benefit from the drive, and bringing the city and county committees up to date, several resignations have occurred.

## LEGION POST TO HONOR JIM SHEA, SOLDIER - T O - B E

Howard Hall post, American Legion, will honor its commander, James T. Shea, next Tuesday evening with a party in the Legion Club. Mr. Shea, serving his second term as commander of the post and acting also as captain of the post's state highway patrol auxiliary unit, will leave Wednesday for Fort Benjamin Harrison, Ind. to begin Army training.

A veteran of the Marine Corps in the first World War, Mr. Shea was inducted recently with a group of Pickaway county draftees. He had requested the draft board for a 1-A classification.

An entertaining evening is planned Tuesday with a floor show and other forms of entertainment being provided. Members of the Legion, the Legion Club and their friends are being invited to the affair.

## Dorothy Jane Fausnaugh, Glenn E. Skinner Wed

### Services Read At Parsonage Of Church

In a quiet service Friday at 8:30 p. m. in the parsonage of the Methodist church, Miss Dorothy Jane Fausnaugh of 723 North Court street became the bride of Mr. Glenn E. Skinner of 465 East Main street. The bride is the daughter of the late Mr. and Mrs. Charles Fausnaugh and Mr. Skinner, the son of Mrs. Zelma Skinner and the late Mr. Wayne Skinner.

The Rev. V. C. Stump of the New Holland and Atlanta Methodist churches officiated, using the single ring ceremony of the church.

A smartly tailored natural color wool jersey frock was chosen by the bride for her wedding. She wore Kelly green accessories and a corsage of white rose buds and baby breath was pinned at her shoulder.

Miss Lucille McClure, 966 South Pickaway street, wore an attractive two-piece dress of printed jersey as she served as Miss Fausnaugh's attendant. Her corsage was of talliesman roses.

Mr. Bertus Bennett was best man for Mr. Skinner.

The new Mr. and Mrs. Skinner have planned a wedding trip of about one week through the North, after which they will live in an apartment on East Main street.

A graduate of Circleville high school and Capital University business school, the bride is secretary to the assistant manager of Ralston Purina Co. and will continue with her work.

Mr. Skinner attended Bliss business college, Columbus, after his graduation from Atlanta high school. He is bookkeeper for the Pickaway Dairy Cooperative association.

### July Marriage

Announcement is made of the marriage of Miss Melba Elizabeth Hill, daughter of Mr. and Mrs. H. G. Hill of Amanda route 2, to Mr. Wayne Winland, son of Mr. Creighton Winland of near Laurelville. The marriage was an event of July 31, the single ring service being read by the Rev. Samuel J. Bishop, an uncle of the bride, at his summer cottage at the Lancaster camp ground.

The new Mr. and Mrs. Winland have established their home on a farm near Gibsonville.

### Mr. Mrs. Campbell Honored

Honoring Private and Mrs. Paul Edward Campbell who were married Thursday in the Stoutsville Lutheran church, Mr. and Mrs. Walter Temple of Circleville route 4, parents of the bride, entertained at dinner Friday at 6:30 p. m. at their home.

Tall white tapered lighted dinner table which was centered with a lovely wedding cake.

Covers were placed for the honor guests, Pvt. and Mrs. Campbell, Mr. and Mrs. Raymond Arledge, Miss Arabelle Thorne, Russell Lane, Earl Stant of Circleville; Mrs. Nellie Campbell, mother of the bridegroom, and Mr. and Mrs. Marvin Justice of Stoutsville and Mr. and Mrs. Temple and sons, Ben and Bobby, of the home.

Pickaway county rationing board acted Saturday to relieve congestion at its City Hall offices by requesting publication of an application form which will make it unnecessary for Circleville and Pickaway county housewives to apply in person at the office. The application blank is for Fall canning sugar allotments only and when sent to the rationing office must be accompanied by a stamped, self-addressed envelope.

Each day from the hour the office opens until it closes in the late afternoon, applicants have been swarming into the rationing office for their canning sugar permits. As a result, office employees are overworked and persons seeking sugar permits often have to wait a long while to obtain their permits.

Office of Price Administration has arranged so that application can be completed by mail. Applicants, however, may still obtain their allotments in person, but if this is inconvenient

the bank may be used. Applicants are being urged to file by mail.

The mail-in plan in brief is this:

1. Clip out the application form which is published in Saturday's Daily Herald.
2. Fill out the blank according to instructions on the form.
3. Address an envelope to the War Price and Rationing Board, City Hall, Circleville, Ohio.
4. Put in the envelope: (a) all the sugar rationing books your family has; (b) the application filled out and signed, and (c) a stamped envelope with your own address on it.

The board will mail back the sugar certificates, which entitle each applicant to buy an amount of canning sugar, with the family books within a few days.

"This mail-in plan," J. O. Eagleton, clerk of the board, said, "has been specially adopted to speed up issuance of canning sugar purchase certificates and to eliminate long waits in our office."

## FISCHER URGES CHEST TRUSTEES TO ATTEND MEET

Importance of Sunday afternoon's War Chest meeting was stressed Saturday by Frank Fischer, chairman of the War Chest campaign, when he urged all trustees to be present. The session will be in the Farm Bureau offices beginning at 1:30 o'clock.

"These are war days," Mr. Fischer said. "There is not a person on the board of trustees who is not very, very busy. This is one of the prime reasons why each has been honored by being included in the list. It is one of the reasons why the meeting has been set for Sunday."

Business to be transacted includes selection of dates for the drive, setting of a goal, a discussion though not final determination of what agencies shall benefit from the drive, and bringing the city and county committees up to date, several resignations have occurred.

## LEGION POST TO HONOR JIM SHEA, SOLDIER - T O - B E

Howard Hall post, American Legion, will honor its commander, James T. Shea, next Tuesday evening with a party in the Legion Club. Mr. Shea, serving his second term as commander of the post and acting also as captain of the post's state highway patrol auxiliary unit, will leave Wednesday for Fort Benjamin Harrison, Ind. to begin Army training.

A veteran of the Marine Corps in the first World War, Mr. Shea was inducted recently with a group of Pickaway county draftees. He had requested the draft board for a 1-A classification.

An entertaining evening is planned Tuesday with a floor show and other forms of entertainment being provided. Members of the Legion, the Legion Club and their friends are being invited to the affair.

**SOYBEAN RANKS HIGH IN LIST OF WAR ESSENTIALS**

Importance of the 1942 soybean crop in Ohio is being stressed by agricultural officials who declare that the soybean grower will find himself more and more a key figure in essential war production as the war goes on.

Ohio ranks fourth among the states in the production of the soybean and the increasing industrial demand for this agricultural product is expected to bring it into still greater importance as a cash crop in the Buckeye state.

Pickaway county farmers have been increasing their soybean acreage each year in the last five or six years with a result that the 1942 acreage is estimated at 17,500. This is about one-third more than was planted in 1941.

Like Casein, a dairy product, soybean protein has a wide variety of industrial uses and can often be employed as substitute for other chemical products critically needed by Uncle Sam.

Large quantities of synthetic resins and plastics, drying oils and solvents requisite for war manufacture are saved by the substitution of soybean and casein proteins in industrial processes.

The war is demanding increased amounts of such solvents as ethyl alcohol, employed in smokeless powder; coal tar solvents like toluol, used in making TNT, and chlorine, an intermediate in the processing of war gas and smoke screen materials.

This year nearly a billion pounds of soybean oil will be produced, an increase of about 50 percent over production of last year when 464,000,000 pounds of this oil went into industrial production of such products as vegetable shortening, oleomargarine, soap, paint and varnish, linoleum, and oil cloth.

The Ohio soybean crop has increased manifold in the last decade. In 1941, the crop covered 674,000 acres in the state, producing 13,143,000 bushels of the beans with a cash value of \$12,375,000. The soybean states range in a belt from Iowa through Illinois, Indiana and Ohio, and in production, these states rank in the same west-to-east order.

Evangelical softball players won a 7-2 tilt Friday evening from Presbyterians in a Church league affair. The winners counted three runs in the second and two each in the sixth and seventh.

Presbyterians weren't able to hit M. Carothers who gave up only five bingles. He was somewhat wild, but not dangerously so. Welker pitched for the losers.

## Washington Merry-Go-Round

(Continued from Page Four)

ines to know the names of ships, tonnage, port of departure, and the time.

Recently, a United Fruit Co. vessel was torpedoed just off Cristobal, Panama. After passengers and crew had taken to the lifeboats, the sub commander cruised up to one boat and said to the ship's first officer, "What happened? You were two hours late."

He was right. The ship had been delayed two hours in leaving Panama.

**THE ENEMY WITHIN**

In a British West Indies port, four ships were torpedoed by a single submarine, which dared to come into the harbor for this slaughter, in spite of the fact that all four ships had deck guns.

But the operation was safe, because at the time the submarine came into harbor, the gun crews were ashore. The submarine had information not only on the whereabouts of the vessels, but on the precise timing for the kill.

This service is provided by "the enemy within"—agents and spies scattered through the ports of the entire Caribbean and Gulf area, an area which has been a haven for the lawless since the free-booting days of Jean La Fitte, continuing on through the run-running days of Prohibition.

In some Latin-American countries, anybody with a pair of eyes—including Germans, Italians, and Japanese—can see the departure of ships. In the port of Maracaibo, Venezuela, for example—and no port is more important for oil shipments—the docks are open to anybody.

Last month a MERRY-GO-ROUND observer lunched in a Maracaibo hotel, and had this conversation with another man at the table:

"Do you live here?"  
"No, thank God!"  
"You're an American?"  
"Yes, a ship's officer. And I'm getting out of here at 2 o'clock today."

"Where are you bound for?"  
"New York."  
"But you never saw me before. I might be an agent for the Germans. Isn't there any restriction on information about ship sailings?"

"Now, what's the use? Anybody can go to the docks and see for himself."

**BUCK-PASSING**

Venezuela has broken relations with the Axis, but has not declared war. It would be a simple matter for an Axis agent to observe the sailing of an American vessel, then radio the news to a submarine waiting off Maracaibo.

In fact, that is just what happens. Sinkings have been heavy in this area, and shipments of oil from Venezuela have been reduced 70 percent since last February. Meantime, refineries are overflowing.

The defense against this should be a monitoring system to locate the hidden radio stations, plus an expert U. S. intelligence service to locate the spies. And this is where there has been lamentable buck-passing and inefficiency. The State Department has asked for radio monitoring equipment to be sent to Latin-America, but the Army, needing it for the Signal Corps, has delayed.

Meanwhile Naval Intelligence is composed for the most part of well-educated young officers from good families who would gladly give their lives for their country, but who know no more about getting the lowdown on the jetsam of the waterfront than the average dock-worker knows about Harvard.

Meanwhile the ships go down at the rate of two, three or four a day. And the submarines, instead of wasting fuel in search of ships, lie in wait for their victim—and will continue to do so until the espionage problem is licked.

**HUTSON WILL BE BACK WITH GREEN BAY CREW**

GREEN BAY, Wis., Aug. 8 — Don Hutson, voted most valuable player in the National Professional Football league in 1941, today assured Green Bay Packers football officials that he will be in the lineup come Fall.

He has returned his signed contract to Green Bay headquarters and has announced his intentions of being on hand for the opening of drills Monday.

Hutson, who set eight pass receiving and scoring records last Fall, again will be teamed up with Cecil Isbell, filling out the combination which completed 10 touchdown passes in 1941.

Instead of wasting fuel in search of ships, lie in wait for their victim—and will continue to do so until the espionage problem is licked.

## BIRDIES SNATCH FULL TILT EDGE OVER A. I. CLUBS

COLUMBUS, Aug. 8—Columbus Red Birds today held undisputed lead in American association standings following yesterday's 4-3 victory over the Milwaukee Brewers and the withering 8-0 defeat handed Kansas City by the Toledo Mud Hens.

Minneapolis, taking the opening contest of a double-header from Louisville, 3-2, moved into a tie for third place with Milwaukee. The second game was postponed.

Indianapolis and St. Paul split a twin bill yesterday, the Saints taking the opener, 5-3, and the Indians capturing the nightcap, 8-6.

A glance at the standings today revealed Kansas City one game behind Columbus; Milwaukee and Minneapolis, both 3 1/2 games behind the Red Birds; Indianapolis 5 behind; Toledo, 5 1/2 away; Louisville, 6, and poor St. Paul, 19 1/2 under the league leaders.

**WOOD IS AFTER CANADIAN OPEN; CHALKS UP 135**

TORONTO, Aug. 8 — Craig Wood, United States Open champion and Ralph Guldahl, a former open title in Uncle Sam's backyard, teed off today in a par-busting deadlock as the Canadian Open championship moved into the final 36 holes of play.

Wood, who said he was "playing in the groove" and Guldahl covered the first 36 holes in 135, nine under par for the Mississauga course. Each sharpshooter fired a 66 on the opening round and followed with identical 69's.

Ben Hogan, who set the gallery tittering with a slashing, record-breaking 65 for the first 18 holes of play, cooled off to 71 to take second place one stroke back of the leaders. The wasp-waist little Texan remained a favorite with the fans to win the tournament that probably will be the last major golfing event for the duration of the war.

**ALSAB READY TO RACE AT WASHINGTON PARK**

CHICAGO, Aug. 8 — Alsab, kept from the races for months by a blind splint and lack of training, was scheduled to return to competition today in the \$2,500 Hinsdale handicap at Washington Park.

The three-year-old colt was eligible also for the richer \$7,500 Sheridan handicap at a mile and an eighth, but Trainer Sarge Swenke picked the six-furlong event as a better tune-up test to start his campaign for the American derby at Washington Park August 29.

Swenke said Alsab would go to the post unless track conditions were particularly bad.

# County Election Officials Receive Last Minute Instructions

## JUDGES CALLED BEFORE BOARD, GET SUPPLIES

Voters Will Receive Single Ballot Only; Speedy Count Is Expected

### OFFICIAL CHANGES LISTED

Precinct Groups Are Urged To Speed Tally And Make Prompt Reports

Pickaway county election officials were receiving final instructions Saturday at board of elections office in the courthouse for handling Tuesday's primary ballot. Presiding judges were called to the office to receive their supplies and orders concerning reporting results to the board.

Since each voter will receive only one ballot at the election, board officials are asking the various precinct authorities to count the entire ticket then make a complete report at once. Each precinct will, by following this suggestion, help the board clean up its work in the quickest time possible.

Russell Imier, clerk of the board, declared Saturday that he expected final tabulation to be completed at a fairly early hour. The count should be complete by midnight he said.

Numerous changes in presiding judges are disclosed by the board. The new list includes: Circleville: 1-A, Clarence Stein replacing Harry L. Bartholomew; 1-B, Harry B. Moore; 1-C, Mack Parrett replacing Fulton Cryder; 1-D, William Welfler; 2-A, S. O. Wolford replacing Fred Nicholas; 2-B, Joe Brink replacing Harry Howard; 3-A, David Dunlap replacing C. E. Roof; 3-B, John Seimer; 4-A, H. H. Groce; 4-B, Mrs. Daisy Shelby; 4-C, Edward McClarren; Circleville township, Luther List replacing A. J. Dunkel; Darby North, Charles McKinley; Darby South, Charles Spangler replacing Warner Neff; Deer Creek,

Clark Smith replacing C. F. Puffinberger; Williamsport, Mrs. Bertha Hays, filling vacancy left by C. W. Hays; Harrison, C. E. Wright replacing David Dunnick; Ashville East, Elwood Morrison replacing E. E. Fraunfelder; Ashville West, Frank Grice; South Bloomfield, Orville O'Day replacing Burt Cook;

Jackson North, C. M. Niles; Jackson South, Fred Hulse; Madison, V. M. Klingensmith replacing William E. Arnold; Monroe North, C. H. Parks replacing Clarence Terflinger; Monroe South, Kenneth Shell replacing Hayes Smith; Muhlenberg, S. C. Weldinger; Darbyville, Sherman Grabill replacing Mrs. Roy Ankrom; Perry East, Leonard Brigner replacing Everett Hoskins; Perry West, Carl Andrews; New Holland, Harry Davis replacing Ralph Timmons; Pickaway, Lawrence McKenzie replacing Ed Wilkins; Salt Creek, Jud Poling; Tarlton, Willson Spangler replacing Marvin Hartranft; Scioto North, Charles Beavers replacing Emil Baughn; Scioto South, Perry Fausnaugh replacing Herschel Beckett; Commercial Point, Earl Trego replacing Orville Rasor; Walnut East, Joseph C. Peters; Walnut West, Nelson Bell replacing E. O. Adkins; Washington, W. G. Richards replacing Turney Leist, and Wayne, Edward B. Dowden replacing Ward H. Peck.

Pickaway county will nominate candidates for representative in the general assembly, auditor and county commissioner and will have a voice in the congressional, state senate and state offices races.

## BLAIR SELECTED TO ATTEND OHIO CHAMBER MEET

F. K. Blair, Pickaway county extension agent, was designated Saturday by A. V. Osborn, president of the Circleville Chamber of Commerce, to attend a meeting of Ohio Chamber of Commerce District Councils next Tuesday in Lancaster hotel, Lancaster.

The meeting will be addressed by Brooks Burnside, agricultural agent for the Ohio Chamber of Commerce.

Importance of the session is stressed in a letter received by Mr. Osborn from Ohio C. of C. officials.

## LOCAL DRAFTEES RATE HIGH IN GENERAL HEALTH

Pickaway county board of health heard local men selected for Army training lauded Friday afternoon when Dr. A. D. Blackburn, reporting July activities of his office, said that health of county selectees generally has been much better than of men sent to the Army from other Ohio counties.

Dr. Blackburn stated that "it is gratifying to know that the number of selectees in Pickaway county with positive blood tests is very small and the percentage very low in comparison with figures submitted from other parts of the state and nation." He said that only few social diseases had been found and that no active cases of tuberculosis has been discovered among selectees.

July was a quiet month in his office, the health officer said, declaring that this condition speaks well for the general situation in the county. There are no homes under quarantine and there is very little sickness of communicable nature. Rabies has not shown itself in the county which is rather unusual for this time of year.

A program for school examinations and immunization of children is being worked out and a schedule of dates when the various schools will be visited will be presented to the heads of all schools. All school buildings will be inspected and drinking water examined.

The board has not yet taken action on employment of a successor to Miss Margaret Hunsicker, county health nurse, who has resigned effective the first of next month.

be Pickaway, Fairfield, Hocking and Perry.

Timeliness of the program centers about the Food-for-Freedom campaign of the government and the need for agricultural raw materials in industrial production for munitions.

Five topics will be covered in the conference, including land use planning, conservation, vocational agriculture, farm financing and post-war agricultural problems.

### CHILDREN ESCAPE FIRE

COLUMBUS, Aug. 8.—The three small children of Mr. and Mrs. Simeon Davis, Harold, 5; Mildred, 4, and Donna Jean, 1, were rescued by Columbus firemen from the second floor of their parents' home after smoke from a fire the youngsters apparently started while playing with matches drove them from the lower story. Mildred, frightened by the smoke, had hidden in a back room closet and firemen had to search the entire upstairs before they found her.

## SUNDAY SERVICE FORMALLY OPENS AIRPORT CHAPEL

Sunday church services at the Lockbourne Army Air Base will formally open the new chapel there, it was announced today by Lieutenant R. A. Mobley, Protestant chaplain, and Lieutenant Andrew A. Bacigalupo, Catholic chaplain.

Mass will be at 7 a. m. and Protestant services from 10 until 11 a. m. in the Colonial type chapel which has been designed and furnished for either Catholic, Jewish or Protestant services.

The chapel has a congregational seating capacity of 330 on the main floor and 60 in the balcony. An electric organ has been installed in a special pit in the balcony and is operated on radio principles with sound wires running to cabinets which can be placed anywhere in the chapel.

Dark beams lend a mission touch to the chapel while the white window effects definitely mark it as Colonial. Rudy R. Lauterbach, in charge of furnishing it and who has been installing church furnishings for 28 years, pointed out. Mr. Lauterbach, of Granville, Ohio, declared that it was an excellently furnished chapel and that the pews were some of the finest that he had ever seen.
